Proclamation

Building Safety Month – May 2017

Whereas, our City is committed to recognizing our growth and strength depends on the safety and economic value of the homes, buildings and infrastructure that serve our citizens, both in everyday life and in times of natural disaster, and;

Whereas, our confidence in the structural integrity of these buildings that make up our community is achieved through the devotion of vigilant guardians—building safety and fire prevention officials, architects, engineers, builders, and others in the construction industry—who work year-round to ensure the safe construction of buildings, and;

Whereas, these guardians are dedicated members of the International Code Council, that brings together local, state and federal officials that are experts in the built environment to create and implement the highest-quality codes to protect us in the buildings where we live, learn, work, worship, play, and;

Whereas, modern building codes adopted by the City and other jurisdictions in Idaho include safeguards to protect the public from natural disasters such as snowstorms, tornadoes, wildland fires, floods and earthquake; and;

Whereas, Building Safety Month is to remind the public about the critical role of our communities' largely unknown guardians of public safety—our local code officials—who assure us of safe, efficient and livable buildings in Idaho, and;

Whereas, "Code Officials—Partners in Community Safety and Economic Growth" the theme for Building Safety Month 2017, encourages all Americans to raise awareness of the importance of building safe and resilient construction; and;

Whereas, in observance of Building Safety Month, we ask our citizens to consider the commitment to improve building safety and economic investment at home and in the community, and to acknowledge the essential service provided to all of us by local and state building departments, fire prevention bureaus and federal agencies in protecting lives and property.

NOW, THEREFORE, I, Shawn Barigar, Mayor, of the City of Twin Falls, do hereby proclaim the month of May 2017 as Building Safety Month. Accordingly, I encourage our citizens to join with their communities in participation in Building Safety Month activities.

*In witness whereof I have hereunto set my
hand and caused this seal to be affixed.*

Request to approve the use of Shoshone Falls reserve funds to repair Centennial Trail.

Time Estimate:

Presentation will take 10 minutes. Staff anticipates allowing some time for questions and answers.

Background:

Flood water in February caused considerable damage to Centennial Trail, undermining the trail and causing the asphalt to collapse. The necessary repair exceeds the resources available of city staff and equipment. Staff solicited an estimate to saw cut the damaged section of trail, place a culvert and a drainage ditch, repair the damaged base, and replace asphalt on the trail. In addition to the trail repair, work will be done to manage water run off on the trail to mitigate further trail damage. Estimates for the project are approximately \$60,000, which would require an informal bidding process. Staff requests approval to use up to \$60,000 for the repair of the trail.

Shoshone Falls/Dierke's Lake is an enterprise fund, funded by vehicle fees collected during the tourism season. Current reserve funds are in excess of \$250,000. Since this is an un budgeted request, Council approval is required to spend reserve funds.

Approval Process:

A majority vote will approve this request.

Budget Impact:

If approved, up to \$60,000 of Shoshone Falls reserve funds will be dedicated to repair the trail.

Request:

Request to adopt a resolution declaring the City's intent to dispose of real property and setting a date for a public hearing.

Time Estimate:

The staff presentation will take about five minutes. Following the presentation, additional time will be necessary for questions and discussion.

Background:

Due to the generosity of MaVTEC and the donations they received from several community members and businesses, the City now owns the property necessary to construct the canyon rim trail across the Storrer property, connecting the Centennial Trail near the jump site to the intersection of Eastland Road and Pole Line Road. As the City has been working with our design engineer to prepare the construction plans for this trail, some existing homeowners adjacent to our proposed trail location have agreed to purchase property from Mr. Storrer in two different locations. These homeowners have approached the City with a request to exchange property that we currently own for the trail with property they are acquiring from Mr. Storrer so that the trail, when constructed, will not be located quite as close to their homes as is currently the design. These proposed exchanges would also benefit the City in that, once complete, they would remove nearly 1,000 feet of trail, greatly reducing our construction expenses, and the exchanges would eliminate eight turns of 90 degrees or more, making for a much more efficient alignment. I have attached several exhibits showing the properties in question and the change that these property exchanges would have on the trail construction and alignment.

The first step in the real property disposition process is to adopt a resolution declaring the City's intent to dispose of the property and setting a date for a public hearing regarding the proposed disposition of property. The City Attorney has prepared a resolution that accomplishes these two purposes. The resolution is attached and ready for adoption. The resolution sets the public hearing date for Monday, May 22nd, 2017 at 6:00 p.m. in the City Council Chambers located at 305 3rd Avenue East.

Approval Process:

A majority vote of the Council is needed to adopt the attached resolution.

Budget Impact:

If the Council approves this request, there will be a minor cost to provide notice for a public hearing.

Regulatory Impact:

Adoption of the resolution will declare the City's intent to dispose of real property and will set a date for a public hearing.

Date: Monday, May 1, 2017
To: Honorable Mayor and City Council
From: Travis Rothweiler, City Manager

Request:

Discussion regarding the City Council's request for staff to prepare a welcoming resolution.

Time Estimate:

The staff presentation will take about fifteen minutes. Following the presentation, additional time will be needed for questions, discussion, and public input.

Background:

At their April 10, 2017 meeting, the City Council considered a request from Mark Crandall and a Boy Scout troop for the City to adopt a welcoming resolution, similar to a resolution adopted by the City of Boise. After much discussion by the Council, and after public input on both sides of the issue, the Council voted to have staff prepare a draft welcoming resolution that was not a copy of Boise's, but rather a resolution unique to Twin Falls that incorporated the input received from the public at that meeting.

Since that meeting, City Staff reviewed the record of the meeting and has received significant additional input from the public on this proposed resolution. Staff has also reviewed several existing policies, plans, and other documents to look for ways in which the City has already adopted welcoming and safe practices that could be included in the creation of a resolution. Based on the variety of the public input and our review of existing plans and policies, I would like to have another discussion with the Council to receive additional input before we prepare and present a draft welcoming resolution for consideration.

Approval Process:

This item is for discussion and feedback. No approval is being requested.

Budget Impact:

There is no budget impact associated with this item.

Regulatory Impact:

There is no regulatory impact associated with this item.
