3) Items for Discussion

Fields mentioned to the committee at the beginning of the meeting that she would like to have a sidewalk conversation at the end of this meeting.

Rob Ramsey handed out some maps to the committee. Rob also handed out how they identified the Levels of Service. Rob then had a discussion with the committee how the evaluation was determined.

a) Existing LOS Map

Ramsey discussed with the committee the level of service determined by him and his team. Rothweiler asked about the lowest level of service, Blue Lakes which is part of the State Highway system, how do you make improvements on that roadway when you realize this is not in the jurisdiction of Twin Falls? Ramsey said the State takes into account the desires of the City. Ramsey said that he knows that the concern on Blue Lakes is that they are limited with Right of Way, so what we are going to be looking at as far as the future is what other opportunities are available, ITD will also be looking at other opportunities to reduce traffic. Prime examples are Pole Line Road and the US 93 bypass. Howard mentioned that the State needs to have some sort of signage out there to truck traffic to keep the trucks off Blue Lakes.

b) Intersection Evaluation List

Intersection identification. Those items are on that list. This will be discussed later.

c) Future LOS Map

Rob Ramsey discussed with the committee the future level of service. Rob had a discussion with City Staff prior to this meeting and revised the map per their suggestions. There was some discussion with the committee in reference to striping and restriping roadways. Ramsey suggested since this is the first time you had this as a draft, please review and bring your comments to the next meeting on January 22, 2018.
