Twin Falls Parks and Recreation Commission Minutes

Tuesday, April 13, 2021, 11:30 AM

Members Present : Kirk Melton, Chairman; Sherry Murray, Vice-Chairman; Corey King; Kevin Jensen; Jade Titus; Ashley Squires; Micheal Metcalf; Heather Muth

Members Absent : Gabe Ostyn, Commissioner.

Guests Present: Jaime Tighe, MaVTEC; Tristan Greaves, MaVTEC; David Spritzer, private donor for MaVTEC proposal; Brandon Robertson, citizen.

Staff Present: Travis Rothweiler; Mitch Humble; Shayne Nope; Greg Lanting; Wendy Davis; Kevin Skelton; Stacy McClintock; John Pauley; Lee Glaesmann; Elois Joseph

1) Confirmation of Quorum/Call Meeting to Order

Wendy Davis called the meeting to order at 11:33 a.m.
A quorum was present.

2) Consent Calendar

- a) Request to approve the Parks and Recreation Commission meeting minutes from March 9, 2021.
- b) Request to remove two trees 336 6th Ave. N.

MOTION: Sherry Murray moved to approve the consent calendar as presented. Kirk Melton seconded the motion. Approved 7 to 0.

3) Items of Consideration.

- a) Introduction of new commissioners
New commissioners Kevin Jensen, Micheal Metcalf, Ashley Squires, Heather Metcalf, and Jade Titus were introduced. Existing commissioners and staff present participated introduced themselves.
- b) Selection of Parks and Recreation Commission officers

Sherry Murray nominated Kirk Melton as Chairman for the Parks and Recreation Commission. Jade Titus seconded the motion. Approved 7 to 0

Kirk Melton entertained nominations for Vice-Chairman. Jade Titus nominated Sherry Murray as Vice-Chairman. Jade Titus seconded the motion. Approved 7 to 0.

- c) Consider a donation request from MaVTEC for the installation of a skills track at Auger Falls

Wendy Davis introduced the donation request and the presenters for the project.

Jaime Tigue, director of MaVTEC introduced herself the organization. The proposal for an addition of a mountain bike skills track at Auger Falls was presented. The following was discussed:

- The BlueCross Transformation grant was brought to the City of Twin Falls. BlueCross Transformation has requested a 30,000 grant, and MaVTEC has agreed to provide an additional \$10,000 to a fund under the Twin Falls Community Foundation.

Tristan Greaves presented the Auger Falls Skills Track proposal including the following:

- The potential benefits of the skills park at Auger Falls
- Dirt Trails Alliance assistance in maintenance of existing trails at Auger Falls.
- The location of the proposed skills track as being close to the parking lot, family friendly, and built to cater to all abilities and skill levels from kids to advanced mountain bikers.
- Auger Falls Park as currently being used by a mountain biking team, and competing teams in the Magic Valley region. The skills park would be a benefit to this group.
- The physical components of the skills track — wooden drops and roller features, and jump lines.
- The construction will implement ideas from existing bike parks in Eagle, ID; St. George, ID; Boise, ID; and Salt Lake, UT.
- Discussion ensued regarding whether the Park was already designed and engineered. MaVTEC has been working with Titus Trails, a contract company located in Ketchum, ID.
- Discussion ensued regarding the impact on any existing trails and the proposed location of the skills park.
- The maintenance of the skills park by the Dirt Trails Alliance that already maintain the dirt trails in the area.

Jaime Tigue discussed the following:

- The sustainability aspect and budget for the proposal.
- Twin Falls Community Foundation will be holding the \$10,000 provided by MaVTEC, and MaVTEC plans on using those funds for the maintenance of the park.
- The selection of Titus Trails as a sustainable-friendly company.
- Collaborations with CSI Outdoor Recreation Department (trail clean-up) for the maintenance of the proposed project.
- The project has the funds, with the addition to the grant, and a donor to the project Dr. David Spritzer.
- Request to be a part of the naming of the proposed skills park because of the generous donation from Dr. David. Wendy Davis informed Jaime Tigue that there was a separate process involved for the naming process and stated that it would be a topic of discussion for another date.

Discussion ensued regarding the maintenance that would be needed for the Skills Park. Tristan Greaves stated that there would be minimal maintenance that can be conducted by volunteers of the Dirt Trails Alliance. Maintenance discussed were as follows: spraying down jumps with water and shaping the jumps. Maintenance to the wooden components, as necessary.

Discussion ensued regarding the issues of the mud that accumulates near the canyon edge as it is near the location of the skills park. The proposed location is not close to the canyon edge and open enough to receive enough sunlight to maintain a dry ground with no mud.

MavTEC was thanked and commended for their work so far. Discussion ensued regarding the water retention area that will be in/around the skills park and the safety for toddlers.

City engineer Lee Glaesmann presented the structural component of the proposal including the following:

- The initial proposed location and the obstacles as to why it was not selected as the location for the Skills Park

Discussion ensued regarding the start date for the proposed skills park construction, the expected start date of the project will be September/November 2021, if approved.

Citizen that attended the meeting mentioned his support of the project.

Dr. David Spritzer, a private donor for the skills park project shared the reason behind his donation.

Corey King entered the meeting virtually on Teams at 12: 01 p.m.

MOTION: Kirk Melton moved to recommend to City Council to approve this donation as requested. Kevin Jensen seconded the motion. Roll Call vote determined that all present approved the motion. Approved 8 to 0.

- d) Consider a request from Nick Robbins to donate a tree to be placed at Benno's Point Park Donation of the tree.

Nick Robbins presented the donation and explained the request.

- The tree is an 8 to 10-year-old non-fruit pear tree.
- Nick will be paying for a city approved tree removal and relocation of the tree to Benno's Point.

Discussion ensued raising concerns about the relocation cost, and opportunity to water and care for the tree. Discussion ensued regarding the proposed location of the Benno's Point Park.

MOTION: Sherry Murray moved to recommend to City Council to approve this donation as requested. Micheal Metcalf seconded the motion. Roll Call vote determined that all present approved the motion. Approved 8 to 0.

e) Commission Orientation

City manager Travis Rothweiler and City attorney Shayne Nope discussed the Parks and Recreation Commission and the regulations and rules for the Commissioners including the following:

- Open Meeting Law
- Parks and Recreation Commission By-laws
- Conflict of interest concerns
- Transparency concerns and public record
- Legalities and responsibilities associated with being a part of the Parks and Recreation Commission.

Councilmember Greg Lanting discussed that the staff's role as support for the Parks and Recreation Commission.

Wendy Davis gave a brief overview of the Microsoft Teams component in the Parks and Recreation Commission

4) Department Updates

a) Department updates

In the interest of time, department updates were not discussed at this meeting.

5) Adjournment

Kirk Melton adjourned the meeting at 1:02 p.m.

Chapter 8

TREE COMMISSION

2-8-1: ESTABLISHMENT AND TITLE:

2-8-2: PURPOSE:

2-8-3: ORGANIZATION OF COMMISSION:

2-8-4: POWERS, DUTIES AND RESPONSIBILITIES:

2-8-1: ESTABLISHMENT AND TITLE:

There is hereby created the tree commission. (Ord. 2600, 11-23-1998)

2-8-2: PURPOSE:

The purpose of this chapter is to establish policies, regulations and standards necessary to ensure that the city will continue to realize the benefits of the community forest. The provisions of this chapter are enacted to help coordinate maintenance of public trees; emphasize use of good tree care practices and promote tree diversity; promote education for all citizens on proper tree care practices; and provide guidance to the tree commission. (Ord. 2600, 11-23-1998)

2-8-3: ORGANIZATION OF COMMISSION:

The commission shall be composed of five (5) members and one alternate member appointed by the mayor and approved by the council. The alternate member shall vote only in the absence of a regular member. All members shall serve a three (3) year term. At the discretion of the mayor and with approval by the council, the parks and recreation commission may be appointed to fulfill the duties of the tree commission. (Ord. 2983, 4-12-2010)

2-8-4: POWERS, DUTIES AND RESPONSIBILITIES:

The commission shall perform the following duties:

- (A) The commission shall determine rules of conduct and bylaws for the commission, subject to council approval. The commission shall elect officers and establish procedures for conduct of documented business as may come before the commission. The commission, in its discretion, may also appoint nonvoting members to give advice.
- (B) The commission shall draft and recommend necessary amendments to the tree ordinance¹. The commission shall also draft and recommend an arboricultural specifications manual and community forestry plan to the council by June 1, 1999. Should the manual and plan be accepted and codified by the council, the commission shall draft and recommend necessary amendments to those documents. Both the manual and the plan shall be reviewed every five (5) years after the effective date of the documents.

- (C) The commission may assist with policies concerning selection, planting, maintenance, and removal of trees, shrubs, and other plants in the city. The commission will promote public education of good arboricultural practices.
- (D) The commission shall recommend to the council the community forestry plan and an implementation strategy, for the establishment of educational and informational programs, and for the development of policies and procedures regarding the city's duties.
- (E) The commission shall maintain and publish a list of certified arborists.
- (F) The commission shall keep the council apprised of its activities. (Ord. 2600, 11-23-1998)

CHAPTER 4 TREE ORDINANCE

SECTION:

8-4-1: Title

8-4-2: Statement Of Purpose

8-4-3: Definitions

8-4-4: Responsibilities Of Adjacent Property Owners

8-4-4-1: Adjacent Property Owners' Responsibilities For Public Trees

8-4-4-2: Responsibilities For Private Trees

8-4-4-3: Responsibilities For Alley Trees

8-4-5: Licensing Of Private Tree Service Companies

8-4-6: Notification And Permits

8-4-7: Damaging, Destroying, Mutilating Or Removing Public Trees

8-4-8: Public Nuisances

8-4-9: Abatement Of Public Nuisances

8-4-10: Penalties For Violation

8-4-11: Severability

8-4-1: TITLE:

This chapter shall be known as the *TWIN FALLS TREE ORDINANCE*. (Ord. 2791, 7-6-2004)

8-4-2: STATEMENT OF PURPOSE:

The purpose of this chapter is to ensure the implementation and continuation of proper professional care of the city's public trees by setting forth and enforcing a set of tree care regulations and standards by which the community forest shall be managed. (Refer to the "Twin Falls City Arboricultural Specifications And Standards Guide".) This chapter is not intended to resolve or regulate disputes or tree management issues on private property that do not affect the safety of the general public.

This chapter is enacted to:

- (A) Promote the general welfare of the community.
- (B) Protect public safety, welfare, property and health.
- (C) Preserve and enhance the community's social and economical environment with a diverse range in size, maturity and species of public trees.
- (D) Increase awareness and appreciation of maintaining a healthy community forest by both professionals and the general public.

(E) Encourage building, development, site and utility planning/practices that prevent and prohibit not only the indiscriminate removal or destruction of trees but also avoidance of unnecessary disturbance to trees, above and below ground, within the city.

(F) Provide a stable and sustainable community forest by establishing common guidelines and enforcement procedures for proper tree management practices such as contained in ANSI A300 and the "Twin Falls City Arboricultural Specifications And Standards Guide". (Ord. 2791, 7-6-2004)

8-4-3: DEFINITIONS:

ANSI A300: The "American National Standard For Tree Care Operations - Tree, Shrub And Other Woody Plant Maintenance - Standard Practices". This document outlines basic national performance standards for tree pruning and maintenance. It was first published in 1995 and revised in 2002 by the American National Standards Institute (ANSI).

ADJACENT PROPERTY OWNER: Any person(s) owning property adjacent to public rights of way.

ARBORICULTURE: The management of trees including planting, pruning, watering, fertilizing, removal or any other action which affects the healthy growth and maintenance of trees.

COMMUNITY FOREST: The collective masses of trees found within a city's boundaries, including both publicly and privately owned trees.

CRITICAL ROOT ZONE: The area under a tree extending from the base of a tree in all directions to an imaginary line ten feet (10') outside of the drip line.

DISEASE: A process that causes anatomical disruptions, physiological dysfunctions, and energy disruptions that lead to decline and/or death of an organism or any of its parts.

HAZARD TREE: Any tree or part thereof (public or private) that poses a high risk (upon fracture or failure) for damage or injury to property, power lines, or people.

PERMIT: Written approval issued by the city and required for any activity above or below ground that may impact the canopy or the critical root zone of any public tree.

PEST: Any insect, disease, animal or other organism that causes harm or damage to trees.

PRIVATE TREE: Any tree whose trunk is located entirely on or within the legal boundaries of a property, which is owned by private individuals or organizations.

PROPERTY OWNER: The recorded owner or contract purchaser of any parcel of land.

PRUNING: The practice of managing tree health according to the national standards as set forth in ANSI A300 and the "Twin Falls City Arboricultural Specifications And Standards Guide".

PUBLIC NUISANCE: See section [8-4-8](#) of this chapter.

PUBLIC PROPERTY: Real property owned, managed, or leased to the city and dedicated to the public for present or future use.

PUBLIC RIGHTS OF WAY: Improved or unimproved public property owned by, dedicated to, or deeded to the public or public's use, for the purpose of providing vehicular, pedestrian and other public use. Such public property provides circulation and travel to abutting properties and includes, but is not limited to, streets, alleys, sidewalks, landscaping, provisions for public utilities, cut and fill slopes, and open public space.

PUBLIC SAFETY: The condition of being safe from bodily harm or injury and/or property damage resulting from tree conditions and/or failures while using public property.

PUBLIC TREE: Any tree whose trunk is located partly or in whole on public property.

STREET TREE: Trees located on a public right of way between the private property line and the curb and/or edge of pavement adjacent to a city street, alley, avenue, boulevard, or public rights of way in street medians within the city.

TOPPING: The removal of the top portion of the leader stem(s). "Rounding", "heading back" or any other term demonstrated by severe cutting back of limbs within a tree crown to laterals, stubs, or buds that are not large enough to assume a terminal (leader) role is also considered "topping".

TREE: Any perennial woody plant that generally grows taller than twelve feet (12') and branches several feet above the ground from the stem or trunk of the plant.

TREE COMMISSION: See section [2-8-1](#) of this code. (Ord. 2791, 7-6-2004)

8-4-4: RESPONSIBILITIES OF ADJACENT PROPERTY OWNERS:

Any person in possession of private property shall maintain trees upon adjacent public rights of way and any trees upon private property, which may affect public property, in a safe, healthy condition in compliance with the provisions of this chapter. Adjacent property owners have the following responsibilities. (Ord. 2791, 7-6-2004)

8-4-4-1: ADJACENT PROPERTY OWNERS' RESPONSIBILITIES FOR PUBLIC TREES:

(A) Permits: Adjacent property owners shall:

1. Meet all requirements and obtain all permits necessary for work done on any public trees as required in section [8-4-6](#) of this chapter.
2. Meet all requirements and obtain all permits necessary prior to commencing repair of damage done to public streets or sidewalk adjacent to any public trees as required in section [8-4-6](#) of this chapter.
3. Meet all requirements and obtain all permits necessary for any tree planting on public property as required in section [8-4-6](#) of this chapter.

(B) Routine Maintenance: Routine public tree maintenance for trees planted after July 1, 2004:

1. Adjacent property owners shall:

- (a) Prune and maintain trees planted according to ANSI A300.
- (b) Topping, heading, shearing or rounding over are not acceptable forms of tree pruning and are not allowed on public trees.
- (c) Except as otherwise determined by the tree commission, branches that overhang sidewalks or streets shall be pruned to provide sufficient vertical clearance over the sidewalk and street so as not to interfere with "public travel" as defined by section [8-1-5](#) of this title.
- (d) Trees shall be pruned to remove dead limbs or other limbs that are considered a "public nuisance" as defined in section [8-4-8](#) of this chapter.
- (e) Any commercial chemical application on public trees or public rights of way trees must be applied by a state of Idaho department of agriculture licensed professional applicator.

2. Control pests on trees located on public rights of way adjacent to the owners' private real property.

3. Provide water sufficient to keep trees located on public rights of way adjacent to the owners' private real property in a healthy, growing condition.

(C) Protection/Preservation:

- 1. Obtain a permit from the tree commission before performing any activity, which may harm any part of a public tree (inclusive of the critical root zone).
- 2. Notify the tree commission when any part of a public tree is damaged or destroyed. (Ord. 2791, 7-6-2004)

8-4-4-2: RESPONSIBILITIES FOR PRIVATE TREES:

(A) Routine Tree Maintenance:

- 1. Removal or pruning of trees located on the owner's private real property that are considered a "public nuisance" as defined in section [8-4-8](#) of this chapter.
- 2. Pruning of trees located on the owner's private real property that are considered a "public nuisance" as defined in section [8-4-8](#) of this chapter. Branches that overhang sidewalks or streets shall be pruned to provide sufficient vertical clearance over the sidewalk and street so as not to interfere with "public travel" as defined in section [8-1-5](#) of this title.
- 3. Control of pests on trees located on the owner's private real property that may pose a threat to public trees upon determination by the tree commission.
- 4. Remove or barricade all debris (wood, branches and leaves) on public property at the end of the working day on which any tree work is done. (Ord. 2791, 7-6-2004)

8-4-4-3: RESPONSIBILITIES FOR ALLEY TREES:

Prune, remove or otherwise abate "public nuisances" as defined in section [8-4-8](#) of this chapter. (Ord. 2791, 7-6-2004)

8-4-5: LICENSING OF PRIVATE TREE SERVICE COMPANIES:

Tree service companies performing work on public trees are required to apply for a license through the Twin Falls parks and recreation department. Applications are then reviewed by designated members of the Twin Falls tree commission and the Twin Falls parks and recreation department to ensure applicants meet the "Twin Falls City Arboricultural Specifications And Standards Guide". Upon approval, licenses shall be issued by the Twin Falls parks and recreation department valid for two (2) years from the date of issue for a fee of twenty five dollars (\$25.00).

(A) Licensing Requirements:

1. International Society of Arboriculture (ISA) certified arborist on staff.
2. An ISA certified arborist or an ISA certified tree worker to be on site while work is being performed.
3. Liability insurance in the amount of one million dollars (\$1,000,000.00).
4. Knowledge and compliance of ANSI A300 section 2.3.

(B) Revocation Of License: The Twin Falls parks and recreation department with the recommendation of the Twin Falls tree commission may revoke a license for violation of any section of this chapter. (Ord. 2791, 7-6-2004)

8-4-6: NOTIFICATION AND PERMITS:

(A) Notification: No person may perform any of the following acts without first notifying the Twin Falls parks and recreation department. Contact the Twin Falls parks and recreation department via mail, phone, fax, or e-mail at a minimum of two (2) business days prior to commencement of the proposed work. Nothing in this section shall be construed to exempt any person from the requirements of obtaining any additional permits as required by law:

1. Prune or otherwise disturb any public tree. This provision shall not be construed to prohibit owners of property adjacent to public rights of way from minor pruning, watering, or fertilizing such trees;
2. Attach any object to public tree(s);
3. Dig, trench, excavate or pile soil or any other materials within the critical root zone of any public tree(s);

(B) Application Procedures And Requirements: Permit application procedures and requirements for public tree(s) removal:

1. This is in no way intended to interfere with the immediate removal of a tree that presents a hazardous or emergency situation;
2. Upon inspection, the Twin Falls tree commission may issue a permit through the Twin Falls parks and recreation department. Permits are available at the Twin Falls

parks and recreation office (136 Maxwell Avenue) between the hours of eight o'clock (8:00) A.M. to twelve o'clock (12:00) noon and one o'clock (1:00) P.M. to five o'clock (5:00) P.M., Monday through Friday;

3. The Twin Falls parks and recreation department may condition the approval of any permit;

4. Prior to the removal of any public, street, or alley tree, the property owner or private tree service company intending to perform the work, which is currently licensed by the city of Twin Falls, must make a request for permit. All work must be completed within thirty (30) days of issuance of said permit;

5. Whenever a public or street tree is removed, the stump of said tree shall also be removed. Permit holders shall then replace the removed tree in accordance with subsection [8-4-7\(E\)](#) of this chapter. Tree replacement shall be a condition of issuance of a permit for removal, unless the Twin Falls tree commission for good cause shown waives such requirement. Tree replacement is the responsibility of the permit holder. (Ord. 2791, 7-6-2004)

8-4-7: DAMAGING, DESTROYING, MUTILATING OR REMOVING PUBLIC TREES:

It shall be unlawful for any person to:

- (A) Damage, destroy, mutilate, or remove any public tree.
- (B) Attach any device or structure (i.e., tree houses, lights, signs, etc.) to or on public trees unless otherwise authorized by the tree commission.
- (C) Store, spill or dump substances, whether liquid or solid, which may be harmful to trees, on any part of a public tree or within the critical root zone of a public tree.
- (D) Damage public trees through construction activities in violation of the conditions of a permit issued under this chapter. Such activities include, but are not limited to:
 - 1. Making excavations or cuts in the soil near roots of public trees unless otherwise approved by the tree commission.
 - 2. Damage roots of a public tree by compacting or placing fill within the critical root zone of a tree.
 - 3. Engage in any pruning activity on public trees not in accordance with ANSI A300, including, but not limited to: topping, heading, rounding or shearing unless otherwise approved by the tree commission.
- (E) Remove any public or street tree and fail to plant a replacement tree. The replacement tree shall be an approved variety from the city of "Twin Falls Tree Selection Guide" and shall be a minimum of a ten (10) gallon size specimen. Where utility lines are present, a class I type tree (mature height not greater than 20 feet) shall be required. Replacement tree shall be planted within thirty (30) days of removal of said tree, or as soon as weather conditions allow. (Ord. 2791, 7-6-2004)

8-4-8: PUBLIC NUISANCES:

The following are hereby declared public nuisances under this chapter:

(A) Any tree or part thereof (public, street or private) which, by reason of location or condition, constitutes a hazard to public safety as determined by an International Society of Arboriculture (ISA) certified arborist in conjunction with the Twin Falls tree commission.

(B) Any tree or part thereof (on public or private property) which obstructs the free passage of pedestrian or vehicular traffic or which obstructs public street lighting.

(C) Any tree or alternate host plant or part thereof (on public or private property) which harbors pests which reasonably may be expected to injure or harm public trees.

(D) It shall be unlawful to plant, transplant or set out any poplar (cottonwood) or willow tree on any street, alley, avenue, sidewalk or other public place or within fifty feet (50') of any sidewalk, paved street, alley or avenue or on any private property within seventy five feet (75') of any main or lateral sewer of the sewer system.

(E) When the roots of any poplar (cottonwood) or willow tree planted on private property or on public property by the adjoining property owner have obstructed or are about to obstruct or damage any sewer line, curb, gutter, sidewalk or street, it shall be the duty of the owner of said private property to remove the encroachment within ten (10) days from the service of the notice. (Ord. 2791, 7-6-2004)

8-4-9: ABATEMENT OF PUBLIC NUISANCES:

The following are the prescribed means of abating public nuisances under this chapter:

(A) Any tree or alternate host plant or part thereof (public or private) declared to be a public nuisance as set forth in section [8-4-8](#) of this chapter shall be pruned, removed or otherwise treated in accordance with the requirements of this chapter. Costs for nuisance abatement are the responsibility of the adjacent property owner of a street tree or the property owner of a "private tree" as defined in section [8-4-3](#) of this chapter.

(B) The tree commission may cause a written notice to be personally served or sent by mail to the owner of the particular property.

(C) In the event the nuisance is not abated by the date specified in the notice, the tree commission is authorized to cause the abatement of said nuisance without further notice. The reasonable cost of such abatement will be charged to the subject property owner. Monies which have not been recovered through the city bill collection procedures may result in a lien against the property or assessed on taxes as provided for in Idaho Code title 50. In addition, the owner of the property upon which the nuisance is located may be subject to prosecution under this chapter, or any other chapter of this code or the Idaho Code for maintaining a public nuisance. Nothing in this provision shall be construed to exempt any person from the requirement of obtaining permits under section [8-4-6](#) of this chapter.

(D) The tree commission is empowered to cause the immediate abatement of any nuisance if it is determined by the tree commission to be an emergency or immediate hazard to public safety.

(E) If the tree commission determines that disposal of the wood, branches and soil from removal or pruning of a nuisance tree is required to complete abatement, such

disposal shall be done as required by the tree commission. Costs associated with the disposal of material from private trees shall be the responsibility of the property owner. (Ord. 2791, 7-6-2004)

8-4-10: PENALTIES FOR VIOLATION:

Any person performing tree work that violates any provisions of this chapter may be punishable by a fine equal to or less than the monetary value of the tree as assessed by a certified arborist or certified tree appraiser using the guidelines established by the International Society of Arboriculture and the degree of damage to the tree. (Ord. 2791, 7-6-2004)

8-4-11: SEVERABILITY:

The provisions of this chapter shall be deemed severable and a finding by a court of law that a provision of this chapter is unlawful shall have no effect on the remaining provisions. (Ord. 2791, 7-6-2004)

Date: Tuesday, May 11, 2021
To: Parks and Recreation Commission
From: Kevin Skelton, Parks Superintendent

ACTION ITEM

Request:

Request to remove tree 230 4th Ave. E.

Time Estimate:

Allow 5 minutes for discussion

Background:

City of Twin Falls Tree Ordinance, (Ord. 2791, 7-6-2004), 8-4-6 (B) 2. states that Upon inspection, the Twin Falls Tree Commission may issue a permit through the Twin Falls Parks and Recreation Dept. Additionally 8-4-6 (B) 1. states that the permit process is in no way intended to interfere with the immediate removal of a tree that presents a hazardous or emergency situation. The Twin Falls Tree Commission was absorbed into the Twin Falls Parks and Recreation Commission in 2010. This commission is being asked to review all tree removal requests and either approve or deny each as part of the Tree Commission duties.

This application is for the removal of an Ash tree located at 230 4th Ave. E

Staff has visited this site and has determined it to be a valid request

Approval Process:

A simple majority will approve this request

Budget Impact:

There is no budget impact associated with this request.

Regulatory Impact:

Approval of this request will enable Parks and Recreation Director to approve the request and set conditions to insure replacement tree is planted.

History:

N/A

Analysis:

N/A

Conclusion:

Staff Arborist has inspected the site. His observations are; Tree is co-dominant which brings into question the trees structural integrity with roughly 50% or more die back within the trees canopy. Tree

has had poor pruning practices in the past which has also contributed to the poor shape it is in. I would recommend this tree be removed.

ACTION ITEM

Request:

Request to remove tree 1306 Poplar Ave.

Time Estimate:

Allow 5 minutes for discussion

Background:

City of Twin Falls Tree Ordinance, (Ord. 2791, 7-6-2004), 8-4-6 (B) 2. states that Upon inspection, the Twin Falls Tree Commission may issue a permit through the Twin Falls Parks and Recreation Dept. Additionally 8-4-6 (B) 1. states that the permit process is in no way intended to interfere with the immediate removal of a tree that presents a hazardous or emergency situation. The Twin Falls Tree Commission was absorbed into the Twin Falls Parks and Recreation Commission in 2010. This commission is being asked to review all tree removal requests and either approve or deny each as part of the Tree Commission duties.

This application is for the removal of an Siberian Elms located at 1306 Poplar Ave.

Staff has visited this site and has determined it to be a valid request

Approval Process:

A simple majority will approve this request.

Budget Impact:

There is no budget impact associated with this request.

Regulatory Impact:

Approval of this request will enable Parks and Recreation Director to approve the request and set conditions to insure replacement tree is planted.

History:

N/A

Analysis:

N/A

Conclusion:

Elm tree at this location has already had what appears to be 65% of the canopy removed due to excessive pruning on a five large limbs. This was probably done to clear a path away from power lines. Because of the work previously done on the tree and the location of the tree, I would recommend this tree be removed.

ACTION ITEM

Request:

Consider a request to remove trees 138-198 4th Ave. E.

Time Estimate:

Allow approximately 10 minutes for the presentation of the request. Allow 30 minutes for discussion and deliberation.

Background:

The Twin Falls Tree Commission was absorbed into the Twin Falls Parks and Recreation Commission in 2010. This commission is being asked to review all tree removal requests and either approve or deny each as part of the Tree Commission duties.

City of Twin Falls Tree Ordinance, (Ord. 2791, 7-6-2004), 8-4-6: Notification and Permits states that:

(A) Notification: No person may perform any of the following acts without first notifying the Twin Falls parks and recreation department. Contact the Twin Falls parks and recreation department via mail, phone, fax, or e-mail at a minimum of two (2) business days prior to commencement of the proposed work. Nothing in this section shall be construed to exempt any person from the requirements of obtaining any additional permits as required by law:

1. Prune or otherwise disturb any public tree. This provision shall not be construed to prohibit owners of property adjacent to public rights of way from minor pruning, watering, or fertilizing such trees;
2. Attach any object to public tree(s);
3. Dig, trench, excavate or pile soil or any other materials within the critical root zone of any public tree(s);

(B) Application Procedures And Requirements: Permit application procedures and requirements for public tree(s) removal:

1. This is in no way intended to interfere with the immediate removal of a tree that presents a hazardous or emergency situation;
2. Upon inspection, the Twin Falls tree commission may issue a permit through the Twin Falls parks and recreation department. Permits are available at the Twin Falls parks and recreation office (136 Maxwell Avenue) between the hours of eight o'clock (8:00) A.M. to twelve o'clock (12:00) noon and one o'clock (1:00) P.M. to five o'clock (5:00) P.M., Monday through Friday;
3. The Twin Falls parks and recreation department may condition the approval of any permit;
4. Prior to the removal of any public, street, or alley tree, the property owner or private tree service company intending to perform the work, which is currently licensed by the city of Twin Falls, must make a request for permit. All work must be completed within thirty (30) days of issuance of said permit;
5. Whenever a public or street tree is removed, the stump of said tree shall also be removed. Permit holders shall then replace the removed tree in accordance with subsection 8-4-7(E) of this chapter. Tree replacement shall be a condition of issuance of a permit for removal, unless the Twin Falls tree commission for good cause shown waives such requirement. Tree replacement is the responsibility of the permit holder. (Ord. 2791, 7-6-2004)

The purpose of the Twin Falls Tree Ordinance is defined below:

8-4-2: STATEMENT OF PURPOSE:

The purpose of this chapter is to ensure the implementation and continuation of proper professional care of the city's public trees by setting forth and enforcing a set of tree care regulations and standards by which the community forest shall be managed. (Refer to the "Twin Falls City Arboricultural Specifications And Standards Guide".) This chapter is not intended to resolve or regulate disputes or tree management issues on private property that do not affect the safety of the general public.

This chapter is enacted to:

- (A) Promote the general welfare of the community.
- (B) Protect public safety, welfare, property and health.
- (C) Preserve and enhance the community's social and economical environment with a diverse range in size, maturity and species of public trees.
- (D) Increase awareness and appreciation of maintaining a healthy community forest by both professionals and the general public.
- (E) Encourage building, development, site and utility planning/practices that prevent and prohibit not only the indiscriminate removal or destruction of trees but also avoidance of unnecessary disturbance to trees, above and below ground, within the city.
- (F) Provide a stable and sustainable community forest by establishing common guidelines and enforcement procedures for proper tree management practices such as contained in ANSI A300 and the "Twin Falls City Arboricultural Specifications And Standards Guide". (Ord. 2791, 7-6-2004)

The Commission should consider these purposes in making decisions regarding tree removal requests:

This application is for the removal of two Weeping Birch and 2 green Ash trees located at 138 - 198 4th Avenue East

Please see the attached request for permit and supporting documents.

The City of Twin Falls Arborist Assessment

Contractor has trenched an area impacting the root system of the two Ash trees. The trench appears to have been dug far enough out to minimize damage to the root system of the two Ash trees. Structural roots appear to be intact. Ash tree to the north has mechanical damage to trunk. Ash trees have some fair-sized limbs encroaching on the new structure. There is some evidence of borer damage in Ash trees but overall appear to be in good health.

Ash trees in Twin Falls have experienced a borer infestation which has required the removal of many trees. Although these appear to be in good health, at some point in time they will likely succumb to the borer.

Southern most Birch had been improperly pruned in the past. Both Birch trees appear to be in excellent health with no sign of disease or borer. Many Birch trees in the community have been infested with borers and have been removed. These are two of very few that remain.

Approval Process:

A simple majority will approve this request

Budget Impact:

There is no budget impact associated with this request.

Regulatory Impact:

Approval of this request enables the Parks and Recreation Director to approve the request and set conditions to insure replacement trees are planted.

Contractor Information

Contractor must be a licensed arborist with the City of Twin Falls

Contractor First Name * Summit Restoration and Construction

Contractor Last Name * Clint Schnoor

Contractor Phone Number * (208)420-9115

Contractor Email * clint@summitrest.com

Tree Species

Tree Species * 2 ash trees, 2 weeping willow trees

Description of This Tree's Location on Property * Ash trees at approximately 144 and 162 4th Ave East. Willow trees at approximately 168 and 180 4th Ave East. See further discription and pictures (exhibit A.)

Reason for Request * Construction of the new residences commenced based upon approval of the building permit and approved site plan. The City Building department apparently did not consult with either the City Engineering or the Parks Department before issuance of the permit or any subsequent inspections. The Applicant discovered this oversight and with this application is intending to bring all the City Departments having authority to the table for approval. A more comprehensive narative will be included as an attachment to this application.

By submitting this form, I hereby make an application to the City of Twin Falls for permission to remove a tree(s)

The City of Twin Falls will respond to your request within five (5) working days from the date of application.

Signature *

Fran Florence

By signing this form, I agree to abide by the conditions set herein.

Attachment 1

Application for City of Twin Falls Permit for Tree Removal

Park Place Homes LLC

Please include this Attachment as a part of our application. It gives a more comprehensive narrative, front elevations of the new homes currently under construction, a site plan showing the locations of the new proposed trees and exhibit A (3 pages) showing current and future conditions affecting the existing trees.

Narrative:

In October of 2020 Park Place Homes LLC and Summit Restoration and Construction received a building permit for Phase I of the town homes currently under construction. That permit included a stamped approval of the site plan that was submitted. Summit Construction embarked on building the homes. Currently the framing is substantially complete on the homes and the foundation walls for the garages located behind the house is nearing completion.

It was assumed that the site plan was fully vetted by the city departments having authority and construction has progressed routinely. Last week, in reviewing the Idaho Power redevelopment plan wherein the overhead lines in the alley will be re-routed underground and additional ground mount transformers will be placed, I reviewed Idaho Powers ideas with the city planning and zoning department. I had questions regarding right of way placement of the transformers. The administrator was surprised that we were going to do work in the right of way and because he was surprised, he realized that City Engineering and the Parks and Recreation Department may also not be aware of the work planned for the right of way. Since that revelation I have met with Engineering and P & Z and have a preliminary approval pending a new civil site plan and approval of the Tree Commission for the removal of the 4 trees reference in the application.

This project is unique in that it is the first multiple home development in the old townsite in likely over 100 years. It is further unique in that it lies within the CB zone with zero lot line setbacks, allowing for construction and the excavation that accompanies it to move closer to trees planted in the right of ways than is typical in residential zones. The excavation that has occurred has undermined the root system of the ash trees and the large branches of the ash trees are looming near or over the homes. This was assumed not to be an issue since the plan was to remove the trees as construction progressed. Further complicating the issue is the planned water service taps from the street right of way to the front of each home which will clearly disrupt the root system even more.

Phase II is scheduled to start later this month. The two birch trees are even closer to the excavation than the ash trees and the vertical wall of the homes will intersect approximately 40% of the tree canopy.

Our deliberations over the last several days have included: an assessment of what went wrong with the permit submittal and approval process, a review of our plan for possible redesign and considerations for

our representations to the buyers of the 8 homes under contract for purchase. From the conceptual beginnings of this project, trees have been an important part. We have always planned on having a substantial net gain of the number of trees on the site. While we planned to remove the 4 trees in the right of way, we are replacing them with 13 new trees in the right of way.

"We are the first major residential home build in the core of town in 100 years and our hope is that these homes and the new trees age gracefully in place for the next 100 years."

We have engaged the help of a certified tree arborist to give us an opinion of the long-term viability of the existing trees given the circumstances. Maybe more importantly, he is also advising us on the species to plant for the replacement trees. His letter is attached.

We understand that as a condition of granting permission to remove the trees that we will have to employ a City of Twin Falls Licensed Tree Car Provider to do the work.

It is our hope that the committee grants us permission to remove the trees as described and provides us with guidance on how move forward with the selection and planting of the new trees.

Respectfully,

Fran Florence for Park Place Homes LLC.

Recreation Update
Brandy Mason & Justin Wolters Recreation Coordinator

Recreation Supervisor Update
Stacy McClintock

Parks
Kevin Skelton & Todd Andersen

Staff has been busy charging all the irrigation systems, checking sprinkler heads, and making any repairs that may have occurred throughout the winter.

The Street Dept. purchased a new machine called an Orbit screener which separates trash, rocks, and debris from gathered leaves and dirt. They have been hauling the finished product to our lot and we are mixing the organic matter and the soil, to make our own topsoil for use in Parks. We are still in preliminary stages of this process, so we will keep you informed.

Our ball diamond crew is busy maintaining and prepping fields for softball leagues and weekend tournaments.

We started manning the parks 7 days per week as the reservation season has started various events and functions.

Pool Update
John Pauley

Golf Update
Steve Meyerhoeffer
April 2021

With the mild winter this year, the golf course has been fairly busy to start the 2021 golf season. As of April 1st, most of our employees are back to work and the golf course is running at full capacity.

The 3 bridges on holes 12, 13 and 14 have been removed and updated with wonderful new cement structures. Great to finally get this project finished!! The final product looks great and will no longer be a safety hazard.

The old maintenance building was taken down and removed the last week in March. With that building space now open it will be helpful for storage and overflow parking.

We aerated our greens the first week of April. The punching and sanding will make play a little rough for a week or so but is vital for the long-term health of the greens. Glad to have that project finished now just waiting for warm weather and water to help with the healing process.

Last year ended up being our busiest year on record. With the money I paid the city at the end of the year for my lease agreement, we were able to update our fire alarm system which was 36 years old. We also have the ok to replace the safety net on the driving range that protects #17 green.

We are again off to a busy start to the new golf season and I am expected another very busy season at TFGC.

May 2021

If the wind ever stops blowing, May should be a busy month. We have started our Men's League, Ladies Day, Ladies League starts in a couple of weeks and the high-school golf teams are in full swing.

I am very pleased at the condition of the golf course up to this point. It came through the winter without much damage and has really greened up nicely. The outside staff has started mowing on a regular weekly schedule. The sprinkler system is one area of long-term concern. We have repaired 10 to 12 breaks from the winter freezing and have also replaced many heads. This is not too unusual, however the entire system is over 30 years old and will need an upgrade in the not so distant future.

Our "Friends of Muni" golf scramble is planned for July 17th at 8:30am. Different ways you can help are: Raffle prizes, locate a local business to sponsor a team or donate to the tournament, sponsor a team or hole, get your own 4 person team to play in the event or just donate to the cause. We were able to raise over six thousand dollars last year which goes entirely to golf course improvements. If you want to sign up a team or have any additional questions just call the pro-shop at 733-3326.

The 2021 season is off to a great start and we are expecting another busy summer!!

Director's Update Wendy Davis

Work on Harmon Park parking lot is progressing. Inability to obtain cement is impacting the completion date. Staff is working with programs to accommodate the disruption to the fields and the parking.

City Council approved additional Capital Improvement requests and those included the following parks and recreation items: Phase II of the pickleball courts, purchase of holiday lights for downtown light poles, purchase of an additional inflatable structure and lane lines for the pool, additional funds for recreation facility maintenance, purchase of two vehicles for parks, and purchase of new flooring for the golf course club house.

Work continues at Cascade Park and we hope to have that completed and the new restroom open soon.

A large community service project was held in the Blue Lakes section of Rock Creek, cleaning up fallen trees, debris, and clearing out overgrown vegetation.

We are working to finalize the plans for the trail head at Eastland and Poleline. Hope to have those for the Commission's review in June.

Thanks to all who attended Arbor Day! We planted four trees at Shoshone Falls Park and got our hands in the dirt!
